Best Friends PANI & MARI

The two cats, Pani and Mari were born in Bedtown in Tokyo.

Pani is a boy that loves sports and is always running around. His dream is to be a soccer player when he grows up. He's already good, but wants to get a lot better. Getting scratched and bruised, he practices every day with great effort.

Mari loves sweets and is a silly girl. Her dream is to open a pastry shop. Soft sponge cake, fluffy cream cakes, sparking jelly cakes. But don't forget the chocolate! But she doesn't just eat sweets. She secretly is an avid scholar!

These two live next to each other and have been best friends since they were young. They play and eat snacks.

One winter day, they went out to buy presents. Pani chose a big, cute colored ribbon for Mari. Just like a fluffy cake. It looked like it fit perfectly. Mari chose a hat for Pani. Maybe Pani will wear it every day, she thought.

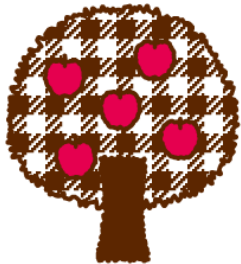

On Christmas day they exchanged presents. Opening their presents they found the cute ribbon and cool hat each had bought each other. Putting them on they had the feeling they were even more fashionable than usual. They both said thanks with a smiling face.

From that time on they came to like fashion more and more. Cool sneakers, cool bags. All of a sudden they were quite stylish.

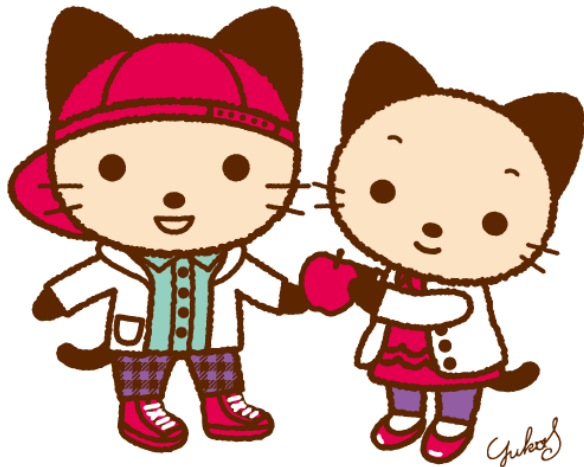

Pani and Mari got bigger and today they happily go out shopping. They ride the train to Harajuku. Are they going to discover anything cool today? Are they going to have any exciting experiences? The spirited two will have a great time wherever they go!
